March 26, 2020

### Holmes County

Confirmed Cases: **0\***

### Ohio

Confirmed Cases: **867**

Hospitalizations: **223**

ICU Patients: **91**

Age Range: **>1–94 years (Median: 51 years)**

Deaths: **15**

\*Please note: HCGHD will not be sharing information about individuals under public health supervision or under voluntary quarantine for COVID-19 in our county. These individuals are not showing any symptoms and are not under investigation. As is our normal practice when we monitor situations of infectious disease in the community, information will be shared as is necessary to protect the public while respecting individual's privacy. As with other diseases, we do not routinely share suspected case information until it is confirmed. The same will be done with COVID-19.

## OVERVIEW:

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China. The World Health Organization declared COVID-19 a global pandemic on March 11, 2020.

## TOP RECOMMENDATIONS IF YOU GET SICK

Ohio Department of Health Director Amy Acton, M.D., MPH, strongly recommends that all Ohioans immediately take the following actions if they feel sick:

- Pay attention for potential COVID-19 symptoms including fever, cough, and shortness of breath. Call your doctor immediately (before seeking care) if you feel like you are developing these symptoms.
- If you have a medical appointment, call the healthcare provider and tell them that you have symptoms consistent with COVID-19. This will help the healthcare provider's office take steps to keep other people from getting infected or exposed. Put on a facemask before you enter the facility.
- Seek prompt medical attention if you develop emergency warning signs for COVID-19. In adults, these can include\*:
  - Difficulty breathing or shortness of breath
  - Persistent pain or pressure in chest
  - New confusion or inability to arouse
  - Bluish lips or face.

\*This list is not all inclusive.

Ask your doctor to call the local health department or the Ohio Department of Health if COVID-19 is suspected. People who are placed under active monitoring or facilitated self-monitoring should follow instructions provided by their local health department.
